PROFILE

I'm a self taught frontend developer for about two years. I am passionate about learning new skills or sharp the existent ones and making new friends along the way. I am able to work under pressure and to finish my task in time. For my future i want to gain more experience in a company and why not, touch the goals together. I worked on my own to have the best results in every project, so I'm experienced Web Developer adept in all stages of advanced web development. Knowledgeable in user interface, testing, and debugging processes. Bringing forth expertise in design, installation, testing and maintenance of web systems. Equipped with a diverse and promising skill-set. Able to effectively self-manage during independent projects, as well as collaborate in a team setting.

EMPLOYMENT HISTORY

Junior frontend developer

Until this moment i did not have the opportunity to gain a professional experience in this field and i hope to achieve this with you. I will be able to complete the requirements imposed on me within the institution. Also, I tried freelancing where i worked to meet client deadlines.

As a self-taught person, I worked hard to achieve every level of knowledge, and I make some projects to reflect this fact. This is my portfolio: https://bugheanudanutportfolio.netlify.app/index.html

- I tried to achieve a consistent look and visual theme across the website by promoting uniform fonts, formatting, images, and layout.
- Remained dedicated to emerging technology and the latest digital marketing concepts.
- Worked to assess competing websites in regards to content, look, and feel.
- Successfully identified, diagnosed, and fixed website problems, including broken links, typographical errors, and formatting issues.

EDUCATION

Accounting and Management Information Systems, Academia de Studii Economice din Bucuresti, Bucuresti
October 2021 — July 2024

During my high school years i found my passion in coding. I learn a little bit of everything and i still want to learn more to acquire the necessary skills for my future in this field. In this time i learn how to think properly and how to think analytical every situation.
